SVI GRAPHICS – ADDITIONAL CHEVRON APPLICATIONS

REFLECTIVE DOOR KICKERS

Specialty kicker panels provide additional vehicle reflectivity when cab doors and truck compartments are open on scene. SVI's kickers can be made from any of our chevron materials and are fully customizable with department name, logo and colors.

REFLECTIVE TRAY STRIPING

Add even more reflectivity with diamond-grade chevron cargo tray striping. This NFPA 1901 reflective striping is available in red with alternating 6". Tray striping also can be printed in single colors in 3M printed reflective and feature custom compartment labels, overlaid and laminated for durability.
